

Supplemental HSE Requirements – Minnedosa Ethanol Plant (MEP)

SUPPLEMENTARY HSE REQUIREMENTS

This appendix defines the MEP business unit specific HSE requirements to be complied with by the Supplier while performing services at the MEP work sites. In some cases, the below requirements are in addition to or in replacement of, the requirements in the HSE Schedule. If clarification is required, please contact your Cenovus representative.

SITE ACCESS ORIENTATION AND TRAINING

The requirement below is in addition to HSE Schedule 3.3 Section 22 Worker Orientation.

All workers access the MEP site will be required to take the MEP Site Specific Orientation which will be delivered in person upon arrival.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

The requirement below is in addition to HSE Schedule 3.3 Section 34, PPE.

- Traction aids to be worn when ice and snow conditions are present on site and in parking lots and must be approved non sparking in the operating facility.
- Double hearing protection may be required during certain activities. Supplier activities that introduce high noise levels must include signage indicating the required level of hearing protection in the area. (>85dBA = single hearing protection, >100dBA = double hearing protection).
- Contact Lenses are not permitted inside the plant secure area due to the difficulty of flushing eyes in event of chemical contact.
- Hooded garments (detachable and non-detachable) are prohibited from all areas outside of the administration building or maintenance offices.
- Foam Sealed eyewear is mandatory when dismantling scaffold.

FIRST AID REQUIREMENTS

The following are requirements for first aid provisions from the Manitoba Workplace Safety and Health Regulations, Part 5; First Aid. The Supplier's Supervisors (in cooperation with Cenovus Energy) are responsible to ensure that minimum first aid assistance is available.

TABLE 1		
Close Workplace		
Number of workers per shift	Low hazard work	Other work
1-10	—	—
11-40	1 Basic	1 Intermediate
41-100	1 Basic	2 Intermediate
101-199	2 Basic	2 Intermediate
200 or more	3 Basic	3 Intermediate

“Close workplace” is a workplace located within 30 minutes travel time from a medical facility. The Minnedosa Health Center is located 6 minutes from MEP.

HEALTH AND SAFETY DOCUMENTATION

Cenovus reserves the right to review and approve/reject the Contractor’s Health and Safety Program.
